Importing 2 questions

---

1. Given a *grammar* $$G=(\Sigma,V,P,S)$$ and a *production* $$A \rightarrow \alpha$$ it holds that $$FIRST(\alpha) = \emptyset$$ implies $$A$$ is annullable?

---

2. A multidimensional array in C is simulated defining 1 dimensional arrays whose elements are arrays. To compute the relative position of one element $a[i_1, i_2, ..., i_k]$ the following formula is applied:
