

TUGboat

During 1992, the communications of the T_EX Users Group will be published in four issues. One issue (Vol. 13, No. 3) will contain the Proceedings of the 1992 TUG Annual Meeting.

TUGboat is distributed as a benefit of membership to all members.

Submissions to *TUGboat* are for the most part reproduced with minimal editing, and any questions regarding content or accuracy should be directed to the authors, with an information copy to the Editor.

Submitting Items for Publication

The deadline for submitting items for Vol. 13, No. 2, will have passed by the time this issue is mailed. The next regular issue will be Vol. 13, No. 4; deadlines are August 18, 1991, for technical items, and September 15, 1991, for reports and similar items. (Deadlines for future issues are listed in the Calendar, page 106.)

Manuscripts should be submitted to a member of the *TUGboat* Editorial Board. Articles of general interest, those not covered by any of the editorial departments listed, and all items submitted on magnetic media or as camera-ready copy should be addressed to the Editor, in care of the TUG office.

Contributions in electronic form are encouraged, via electronic mail, on magnetic tape or diskette, or transferred directly to the American Mathematical Society's computer; contributions in the form of camera copy are also accepted. The *TUGboat* "style files", for use with either plain T_EX or L^AT_EX, are available "on all good archives". For authors who have no access to a network, they will be sent on request; please specify which is preferred. For instructions, write or call Karen Butler at the TUG office.

An address has been set up on the AMS computer for receipt of contributions sent via electronic mail: TUGboat@Math.AMS.com on the Internet.

TUGboat Advertising and Mailing Lists

Other TUG Publications

TUG publishes the series *T_EXniques*, in which have appeared reference materials and user manuals for macro packages and T_EX-related software, as well as the Proceedings of the 1987 and 1988 Annual Meetings. Other publications on T_EXnical subjects also appear from time to time.

TUG is interested in considering additional manuscripts for publication. These might include manuals, instructional materials, documentation, or works on any other topic that might be useful to the T_EX community in general. Provision can be made for including macro packages or software in computer-readable form. If you have any such items or know of any that you would like considered for publication, contact Karen Butler at the TUG office.
