

The Most Powerful Mathematical Typesetting Software = Y&Y TeX System

There's no better mathematical typesetting language than TeX, and there's no better software for implementing it than Y&Y TeX System. Y&Y TeX System simplifies TeX while maximizing its unsurpassed typesetting capabilities.

Here's how:

Y&Y TeX System.

The Ultimate

Problem Solver.

- On-the-fly font re-encoding lets you specify unencoded characters otherwise inaccessible in Windows.
- Partial font downloading dramatically speeds up printing.
- Web publishing capabilities let you prepare documents in Acrobat PDF which appear on screen exactly as you designed them.
- Customizable TeX menu lets you link to an editor, spell-checker or any other DOS or Windows program.

But that's just part of the whole formula.
