

Introductory

- 4 *Barbara Beeton* / Editorial comments
 - typography and *TUGboat* news
- 16 *Jonathan Fine* / TUG is T_EX users helping each other
 - brief review of T_EX Users Group’s status and purpose
- 16 *Jonathan Fine* / L^AT_EX and Jupyter, TikZ and Vega
 - analogy of T_EX and HTML publishing languages
- 44 *Frank Mittelbach* and *the L^AT_EX Project Team* / New rules for reporting bugs in the L^AT_EX core software
 - as maintained by the L^AT_EX Project: use the `latexbug` package and github.com/latex3/latex2e
- 20 *Gerd Neugebauer* / CTAN quiz
 - a tour by url through several notable features of CTAN
- 3 *Boris Veytsman* / From the president
 - conferences, funding, accessibility, education
- 19 *David Walden* / Type designer Nina Stössinger speaks at 3rd Annual Updike Prize event
 - report of vibrant presentation on “Looking & Making & Questioning”

Intermediate

- 88 *Karl Berry* / The treasure chest
 - new CTAN packages, October 2017–April 2018
- 30 *Marcin Borkowski* / T_EXing in Emacs
 - Emacs basics, built-in features for text, customizations, extensions
- 17 *Peter Flynn* / Typographers’ Inn
 - Fonts and faces and families; X_YL^AT_EX
- 8 *Yannis Haralambous* / T_EX as a path, a talk given at Donald Knuth’s 80th birthday celebration symposium
 - the impact of T_EX: technical, esthetic, and personal
- 48 *L^AT_EX Project Team* / L^AT_EX news, issue 28, April 2018
 - A new home for L^AT_EX2_ε sources; Bug reports for core L^AT_EX2_ε;
UTF-8: the new default input encoding;
A general rollback concept; Integration of `remreset` and `chngcntr` packages;
Testing for undefined commands; Changes to packages
- 21 *Carla Maggi* / The DuckBoat — News from T_EX.SE: The Morse code of TikZ
 - history of duck mania, extended TikZ example

Intermediate Plus

- 60 *Luciano Battaia* / Three-dimensional graphics with TikZ/PSTricks and the help of Geogebra
 - 3D examples plotted by Geogebra and typeset with T_EX
- 69 *Alan Braslau, Idris Hamid, Hans Hagen* / ConT_EXt nodes: commutative diagrams and related graphics
 - introduction to and graduated examples of diagrams with MetaPost and ConT_EXt

Advanced

- 51 *Enrico Gregorio* / T_EX.StackExchange cherry picking: `expl3`
 - extended examples of `expl3` programming: lists, strings, macros, graphics
- 27 *Hans Hagen* / From Lua 5.2 to 5.3
 - handling complications from new integer representations of numbers
- 41 *Hans Hagen* / Executing T_EX in Lua: Coroutines
 - efficiently executing T_EX inside Lua loops
- 37 *Henri Menke* / Tutorial: Using external C libraries with the LuaT_EX FFI
 - step-by-step example linking the GNU Scientific Library (GSL) to LuaT_EX, and `pgfplots`
- 81 *Udo Wermuth* / T_EX’s “additional demerits” parameters
 - analysis of `\adjdemerits`, `\finalhyphendemerits`, `\doublehyphendemerits`

Reports and notices

- 2 Institutional members
- 5 *Barbara Beeton* / Hyphenation exception log
 - update for missed and incorrect U.S. English hyphenations
- 7 *Norbert Preining* / In memoriam: Staszek Wawrykiewicz (1953–2018)
- 27 *John Atkinson* / Comic: Prefixation
- 90 From other T_EX journals: *Die T_EXnische Komödie* 4/2017–1/2018; *Zpravodaj* 2017/1–4;
- 92 *Karl Berry* / TUG financial statements for 2017
- 93 T_EX consulting and production services
- 94 *Karl Berry* / Production notes
 - page numbers as links in *TUGboat*’s complete PDF contents
- 95 TUG 2018 announcement
- 96 Calendar
