

Introductory

- 16 *Jacques André* / James Mosley (1935–2025) and French typography
- 4 *Barbara Beeton* / Editorial comments
- 17 *Doris Behrendt, Erik Nijenhuis* / GuIT meeting, Pisa 2025: A visit by Doris and Erik
 - \TeX nical summary of talks
- 3 *Arthur Rosendahl* / From the president
 - Claude’s Cycles, Rubik’s Cubes, and sharing
- 7 *Petr Sojka* / Frank Mittelbach has received an honorary doctorate from Masaryk University
 - recognizing Mittelbach’s contributions to document and software engineering
- 64 *Joseph Wright* / `ltx-talk`: A class for accessible presentations

Intermediate

- 135 *Karl Berry* / The treasure chest
 - new CTAN packages, October 2025–March 2026
- 34 *Janusz S. Bień* / The use of *rv* and *w* in old Polish printed works
 - use of ‘w’ vs. ‘rv’ in early printed Polish works
- 28 *Erik Braun* / CTAN 2025: Architecture, operation, team and future
 - current state of the central infrastructure of the \TeX world
- 22 *Behdad Esfahbod* / HarfBuzz: The quest for universal text shaping
 - the evolution of digital text shaping for complex scripts: HarfBuzz, \TeX , and Unicode
- 52 *Matthew D. Hanson* / Towards making more accessible course materials with L^A \TeX using Pandoc
 - use of Pandoc for practical, if imperfect, remediation of L^A \TeX documents
- 48 *Stephan Kurz* / `manycolposter`: Minuscule minutes’ text on DIN A0
 - printing large texts in a 2–6pt font size using 32 columns
- 67 *Johan Larsson, samcarter* / Moloch: A minimalist, feature-rich beamer theme
 - updating the Metropolis theme; generating PDF and HTML from a single source via Quarto
- 38 *Carla Maggi* / The DuckBoat — Beginners’ Pond: Making life easier on Q&A sites
 - code copying, chat features, notifications, other tips for `tex.stackexchange.com` and `topanswers.xyz`
- 89 *Travis Stenborg* / Mathematical notation in REDCap online data collection instruments
 - inserting math from L^A \TeX in online surveys via PDF to SVG

Intermediate Plus

- 75 *Anders Andersen* / A L^A \TeX package for the Aspen security protocol notation and BAN logic
 - an expressive and consistent notation for presenting security protocols
- 57 *Niklas Beisert* / Composing equations with `eqnlines`
 - significantly extending `amsmath` for both single- and multi-line equations
- 43 *Vincent Goulet* / You (S)wove? Well, (S)tangle now!
 - combining `weave` and `tangle` for maintaining literate R scientific documents
- 81 *Michal Hoftich* / Publishing L^A \TeX documents on the web using \TeX 4ht and GitHub Actions
 - \TeX 4ht templates for books, static web sites, and presentations
- 91 *Vít Starý Novotný, Petr Sojka* / From footage to film: Recording and editing the Czech premiere of *Fantasia Apocalyptica*
 - processing steps from raw audio and video to the final master, mostly using free and open source tools

Advanced

- 100 *Hans Hagen, Mikael P. Sundqvist* / L-systems: Turtle graphics with MetaPost and Lua
 - implementing space-filling curves: dragon curves, Sierpiński fractals, many more
- 112 *Hans Hagen* / Looseness processing costs
 - examining `\looseness` time and memory costs
- 114 *Hans Hagen* / Nodes and other neat old features
 - traditional and Lua(Meta) \TeX memory layouts and processing
- 119 *Udo Wermuth* / Baseline grid typesetting with plain \TeX
 - practical macros to help grid typesetting of plain \TeX documents, including math, insertions, etc.

Reports and notices

- 2 Institutional members
- 137 From other \TeX journals: *Die \TeX nische Komödie* 4/2025–1/2026; *Zpravodaj* 2025/1–4; *La Lettre GUTenberg* 56–57 (2025–2026)
- 141 *Karl Berry* / TUG financial statements for 2025
- 143 *John Atkinson* / Comics: Parenthetically speaking; periodic table of elephants
- 142 \TeX consulting and production services
- 143 TUG patron: \TeX Folio
- 144 Calendar
