Here is some long text. Here is some
long text. Here is some long text. Here
is some long text. Here is some long
text. Here is some long text. Here is
some long text.

End of test.

Note the incorrect indentation in the 3rd item, which is apparently related to something `parpic` does that doesn't affect the 2nd. The next example has a `parpic` in each item, and works ok.
