

## Case study: TUG Conference Abstracts

2022: 21 July (paraphrased)

[Contributions from experienced T<sub>E</sub>X users.]

Why TeX source in TUG abstracts web page?

Several have reported this. It is being fixed.

As T<sub>E</sub>X users we're used to reading T<sub>E</sub>X code.

And this is the best for blind T<sub>E</sub>X users.

I thought for blind HTML better than T<sub>E</sub>X source.

The T<sub>E</sub>X source would confuse [sighted] novices.

Improve the HTML or convert T<sub>E</sub>X source to PDF.
